Recruitment: coding exercise

We're excited to see your interest in working with Meetingpackage! The next step in the recruiting process for you is to complete a coding task and should not take more than 2-3 hours. All the best!
You can send the solution in zip or give us link to github/bitbucket.

Task : Create an html page for our customer checkout page.

A **header** which contains:
- Meetingpackage logo(attached in the zip)
- Language dropdown (Just a select dropdown, it does not need to update the page language)
- Name of the logged in user

A **body** which contains the following:
- Personal information (first name, last name, email, phone, company)
- Free text field
- Checkbox "agree to terms"
- A continue button, which is only clickable when the checkbox is checked
- A booking request summary with the following information:
    - Title: "Venue Luna House"
    - Picture: see attachment.
    - Date: Friday, February 14, 2019 - 09:00 to 17:00
    - Room: Lounge
    - Delegates: 10
    - Price per delegate: 55 EUR.
    - Total price: 550 EUR.

A **footer** which contains
- Meetingpackage logo
- The following hyperlinks:
    - Solutions
        - Hotel Chains
        - Independent Hotels
        - Partners
        - Unique Venues and Event spaces
    - Products
        - Online Booking Engine
        - Global Distribution System
        - Sales & Catering
        - Integrations
        - Analytics
    - More
        - Company
        - Contact

Please only use client sided code. You are welcome to use any frameworks. Do not copy or make it look too similar as meetingpackage.com.

Coding guidelines
1. Clear code and create an appealing UI.
2. Layout should be responsive.
